## Introduction

For the first delivery we were expected to carry out one mandatory task and two optional assignments. The first task involved the addition of a link to our favorite website to the anonymous menu. The other assignments were writing this analysis report and a planning and progress report.

The document will begin by listing the obligatory tasks followed by the optional ones. Each task will be assigned a number, accompanied by its official description, and if necessary, a thorough analysis as outlined in the Annexes document.

## Contents

### Mandatory task D01-1:

"Modify the anonymous menu so that it shows an option that takes the browser to the home page of your favourite web site.  The title must read as follows: "⟨id-number⟩: ⟨surname⟩, ⟨name⟩", where "⟨id-number⟩" denotes your DNI, NIE, or passport number, "⟨surname⟩" denotes your surname/s, and "⟨name⟩" denotes your name/s."

Due to its simplicity there's no need for additional analysis.

### Extra task D01-11:

"Produce an analysis report."

Due to its simplicity there's no need for additional analysis. See we have a very straightforward explanation on how to write an analysis report on the *Annexes* document.

### Extra task D01-12:

"Produce a planning and progress report."

Due to its simplicity there's no need for additional analysis. See we very straightforward indications on how to write a planning and progress report on the *Annexes* document.

## Conclusions

Since this delivery primarily serves as an introduction to the project, the framework, and group working methods, the requirements are straightforward and do not necessitate additional analysis. There were no conflicts or ambiguities identified.
